Chapter 2

Hierarchical Index

2.1 Class Hierarchy

This inheritance list is sorted roughly, but not completely, alphabetically:

std::enable_shared_from_this
- State . . . 11
  - Exit_State . . . 8
  - Game_State . . . 9
  - Menu_State . . . 9

Game_Object . . . 8
- Enemy . . . 7
  - Asteroid . . . 7
  - Bullet . . . 7
  - Missile . . . 10
  - Ufo . . . 12
- Player . . . 10
- Projectile . . . 11

Texture_Manager . . . 12

World . . . 12

Chapter 3

Class Index

3.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

Asteroid 7
Bullet 7
Enemy 7
Exit_State 8
Game_Object 8
Game_State 9
Menu_State 9
Missile 10
Player 10
Projectile 11
State 11
Texture_Manager 12
Ufo 12
World 12

Chapter 4

Class Documentation

4.1 Asteroid Class Reference

Inheritance diagram for Asteroid:

4.2 Bullet Class Reference

Inheritance diagram for Bullet:

Collaboration diagram for Bullet:

Public Member Functions

- **Bullet** (const sf::Vector2f &pos, const float speed, const std::string &texture, const sf::Vector2f &player)
- bool **update** (sf::Time delta, World &World) override

Additional Inherited Members

The documentation for this class was generated from the following files:

- enemy.h
- enemy.cc

4.3 Enemy Class Reference

Inheritance diagram for Enemy:

Collaboration diagram for Enemy:

Public Member Functions

- **Enemy** (const std::string &texture, const float s)

Protected Member Functions

- void **out_of_bounds** ()

Protected Attributes

- const float **speed**
- const double **random**

Additional Inherited Members

The documentation for this class was generated from the following files:

- enemy.h
- enemy.cc

4.4 Exit_State Class Reference

Inheritance diagram for Exit_State:

Collaboration diagram for Exit_State:

Public Member Functions

- std::shared_ptr< State > **update** (sf::Time)
- void **render** (sf::RenderWindow &)

Additional Inherited Members

The documentation for this class was generated from the following file:

- state.h

4.5 Game_Object Class Reference

Inheritance diagram for Game_Object:

Public Member Functions

- **Game_Object** (const std::string &texture)
- virtual bool **update** (sf::Time time, World &world)=0
- void **render** (sf::RenderWindow &window)

Public Attributes

- sf::RectangleShape **shape**
- sf::Vector2f **dir**

The documentation for this class was generated from the following files:

- game_object.h
- game_object.cc

4.6 Game_State Class Reference

Inheritance diagram for Game_State:

Collaboration diagram for Game_State:

Public Member Functions

- std::shared_ptr< State > **update** (sf::Time delta) override
- void **render** (sf::RenderWindow &to) override

Additional Inherited Members

The documentation for this class was generated from the following files:

- game_state.h
- game_state.cc

4.7 Menu_State Class Reference

Inheritance diagram for Menu_State:

Collaboration diagram for Menu_State:

Public Member Functions

- **Menu_State** (std::shared_ptr< State > resume=nullptr, int score=0)
- void **on_key_press** (sf::Keyboard::Key key) override
- std::shared_ptr< State > **update** (sf::Time time) override
- void **render** (sf::RenderWindow &draw) override

Additional Inherited Members

The documentation for this class was generated from the following files:

- menu_state.h
- menu_state.cc

4.8 Missile Class Reference

Inheritance diagram for Missile:

Collaboration diagram for Missile:

Public Member Functions

- **Missile** (const sf::Vector2f &pos, const float speed, const std::string &texture)
- bool **update** (sf::Time delta, World &World) override

Additional Inherited Members

The documentation for this class was generated from the following files:

- enemy.h
- enemy.cc

4.9 Player Class Reference

Inheritance diagram for Player:

Collaboration diagram for Player:

Public Member Functions

- **Player** (const sf::Vector2f &pos)
- bool **update** (sf::Time delta, World &world) override

Additional Inherited Members

The documentation for this class was generated from the following files:

- player.h
- player.cc

4.10 Projectile Class Reference

Inheritance diagram for Projectile:

Collaboration diagram for Projectile:

Public Member Functions

- **Projectile** (const sf::Vector2f &pos, const float r)
- bool **update** (sf::Time delta, World &world) override

Additional Inherited Members

The documentation for this class was generated from the following files:

- projectile.h
- projectile.cc

4.11 State Class Reference

Inheritance diagram for State:

Collaboration diagram for State:

Public Member Functions

- virtual void **on_key_press** (sf::Keyboard::Key key)
- virtual std::shared_ptr< State > **update** (sf::Time time)=0
- virtual void **render** (sf::RenderWindow &to)=0

Static Public Member Functions

- static void **run** (sf::RenderWindow &window, std::shared_ptr< State > state)

The documentation for this class was generated from the following files:

- state.h
- state.cc

4.12 Texture_Manager Class Reference

Static Public Member Functions

- static sf::Texture * **get** (const std::string &name)

The documentation for this class was generated from the following files:

- texture_manager.h
- texture_manager.cc

4.13 Ufo Class Reference

Inheritance diagram for Ufo:

Collaboration diagram for Ufo:

Public Member Functions

- **Ufo** (const sf::Vector2f &pos, const float speed, const std::string &texture)
- bool **update** (sf::Time delta, World &World) override

Additional Inherited Members

The documentation for this class was generated from the following files:

- enemy.h
- enemy.cc

4.14 World Class Reference

Public Member Functions

- void **update** (sf::Time delta)
- void **render** (sf::RenderWindow &to)
- void **add** (shared_ptr< Game_Object > object)
- std::vector< shared_ptr< Game_Object > > **collides_with** (Game_Object &me) const
- bool **is_dead** () const
- sf::Vector2f **player_pos** () const
- int **get_score** ()
- int **get_maxEnemies** ()
- int **get_ufo_num** ()
- void **add_score** (int s)
- void **add_maxEnemies** (int m)
- void **add_ufo_num** (int u)

The documentation for this class was generated from the following files:

- world.h
- world.cc
